Dear HydroMassage,

The HydroMassage has been great for our salon! In general, the bed is very popular and is a great hit on our tours for the clients. We show them the entire salon; however, the HydroMassage always peaks a lot of interest and customers are very inquisitive on what the bed is and how it works.

We have placed the bed in a room with a very relaxing environment. It looks very peaceful and allows our clients to escape for a moment while they enjoy their session on the HydroMassage.

The HydroMassage is so easy to maintain and clean and is an all-around great piece for our salon. I would definitely recommend the HydroMassage to other Planet Beach franchises as it is a great incentive for them to give to their clients and it really helps to sell the "Spa Package". The HydroMassage also helps to set us apart from other tanning salons; making us much more desirable.

Thank you, HydroMassage!
